

# WOMEN AT THE SOURCE

When women lead, water  
becomes a force for change

Women and girls are disproportionately affected by the global water crisis — impacting health, education, and economic opportunity. Access to water is more than a basic need. It is a catalyst for dignity, leadership, and lasting change.

## WOMEN AT THE SOURCE

### Turning commitment into impact

Highlighting the 2026 UN Year of Water and Gender Equity, Women at the Source brings together a small group of women leaders to advance the Water & Gender movement over 12 months. This initiative aligns with the UN World Water Day of Water and Gender.

## THE IMPACT

Ambassadors help to:

- Elevate conversations on water, gender, and leadership
- Mobilize support within their networks
- Contribute to a collective objective of **\$40,000**, with the ambition to double impact through a potential 1:1 matching gift

## WHO IT'S FOR

A curated group of **8–15 impact-minded women leaders and change makers**, committed to acting together.

## THE COMMITMENT

As an ambassador, you can harness this campaign to launch unique, purpose-driven initiatives that help generate meaningful support for One Drop. Over 12 months:

- Contribute or mobilize funds to reach the collective objective
- Share key campaign moments
- Help us engage with contacts who might be interested in our mission

## WHY ONE DROP

Founded in 2007, One Drop delivers sustainable water access through integrated solutions that combine infrastructure, behaviour change, and local empowerment.

## JOIN WOMEN AT THE SOURCE

Help turn water access into opportunity — for women and communities worldwide.
